

### **Danielle Lindop- Inclusion Leader (staff governor)**

I began my teaching career in 2010. As a teacher at Alexandra Junior School I am passionate about all members of the school community: staff, parents, governors and our wonderful children. I have been a staff Governor at the school for the last four years, and I am now excited to become a Federation Governor.

As staff governor, I serve as a useful link between our school staff and the governing body. As well as being an enthusiastic and committed supporter of Alexandra Junior School, I have a unique understanding of the school which enables me to contribute positively to its development. During my teaching career my interest in Special Educational Needs developed and I have held the position of Special Educational Needs Coordinator (SENCO) for the last four years. As a teacher and SENCO, I believe I have a clear understanding of the characteristics of effective teaching and learning, the ability to devise, implement and evaluate systems for assessing and reviewing the progress of pupils.

I am proud to be part of the community our schools serve and I am passionate about making a difference to the lives of its young people.
