

**Mrs Margaret Tatton - Co-opted Governor (Temporary Chair of Governors)**

I am a retired deputy head teacher; I worked in a large inner city high school. I had particular responsibility for training new teachers as well as the appraisal and professional development of all staff both teaching and support. I was a member of SACRE which is responsible for writing and monitoring the Agreed Syllabus for Religious Education. I was also involved in developing strategies for effective classroom management and safeguarding procedures. I supported staff in a range of educational settings to implement and monitor these strategies effectively. I am very keen to continue to help and support young people in the city. It is very rewarding to belong to the governing body, responding to the responsibilities and challenges involved, and working in partnership with so many people to ensure that the pupils have a happy and secure environment in which to develop and achieve their full potential.
