

Nazia Din - Parent Governor

My name is Nazia Din. I am relatively new to this role as parent governor, therefore I'm constantly learning new things. As a governor, I want to represent the interests of parents and children in a productive manner. My aim is to ensure that our children have a positive experience at the school and that they receive the full support and resources from the school allowing them to achieve to the best of their ability.

I studied Law at Staffordshire University and have also completed the Citizens Advice Bureau training course. I worked for the Legal Advice Bureau previously and I believe the experience I have gained whilst studying and working will benefit me greatly in my duties as a governor.

I am currently a volunteer for the Alexandra Infants School toddlers group which is great as I meet potential students as well as the wider community because everyone is welcome. My current employment involves mainly clerical work therefore this is ideal for me and I find it fulfilling as it gives me personal satisfaction on a social level.

I have three children at Alexandra school. I am pleased to be a parent governor as I feel I have a unique insight into the education that children are receiving across the two schools. In my view, it is important to understand and contribute to the school my children attend, as I believe that education is the most important gift we can give to our children. It is the foundation they will build their future upon.
