Reasoning

Read the statements and decide if they are true or false. You might want to try some calculations to test your ideas.

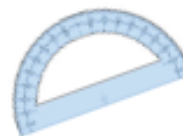

Explain your answer to an adult.

Multiplication and Division - Explain Your Reasoning

Jessica says, "I know the number 15 is in the five times table so it is also in the ten times table."

Is she correct?

Explain your answer.

Multiplication and Division - Explain Your Reasoning

Sayed says, "I know the number 20 is in the ten times table so it is also in the two times table."

Is he correct?

Explain your reasoning.

Multiplication and Division - Explain Your Reasoning

If I count down from 100 in tens, I will say the number 30.

True or false?

Explain your reasoning.
